

Lansdown Model Flying Club

Minutes of committee meeting held on 14th February at
Lansdown North Playing Fields at 10.30 am.

Present: George Bailey, Robin Gay, Roger Clark, Simon Kelly and Robin Davies.

Site Usage.

The chairman advised the committee that the individual in BANES we had been dealing with for 14 months trying to finalise an agreement for the continued use of the flying field had now left the Council. We have been advised that his replacement is Paul Pearce that none of us currently know. It was agreed that the club will immediately pay the Council the annual 2015 rental for the field and that Paul Pearce will be contacted to try to get this agreement finalised once and for all.

Safety.

The club does not have a safety officer as no experienced member has so far been prepared to take on this role following the resignation of Shelly Redworth in late 2014. The Committee agreed that every member will be made aware of the fact that the club does not currently have a safety officer and that in any event it was incumbent on every member to observe the BMFA and club flying rules at all times and be fully responsible for their actions whilst flying at the club site. The Chairman will be speaking to the BMFA to determine whether it is possible for our club to operate under the umbrella of BMFA membership without an appointed safety officer.

Club member flying concern.

One of our members has recently had several flying incidents of some concern to the committee. The Chairman agreed that he would speak to the individual concerned. If further incidents do occur then this individual will be required to only fly with an experienced flying member in attendance at all times.

There being no other business the meeting closed.
