

Lansdown Model Flying Club

Minutes of committee meeting held on 8th March 2014 at
Lansdown North Flying Field.

Present: George Bailey, Shelly Redworth, Roger Clarke, Simon Kelly, Robin Davies.

1. All members are to be advised again that in the event of any damage to their plane any debris created must be immediately removed in its entirety. Footballers use these pitches and there must be no model aircraft debris left anywhere on the field.
2. One of our members has had 2 recent incidents where there has been an apparent failure of electrical equipment on 2 of his aeroplanes over 2 consecutive weekends. This member has been asked to ensure that his radio control equipment and the general airworthiness of his aircraft are always fully checked before flying, that for the time being he gets his aircraft assessed by another member before attempting to fly them and has an experienced club flyer accompany him whilst flying. Health and Safety of our hobby is of the utmost importance and given absolute priority by the committee. The member has been spoken with and has readily agreed to the request made by the committee. A letter covering the points is being sent to the member concerned.
3. The member who was suspended last year for dangerous flying and subsequently re-instated subject to agreeing to observe certain strict safety conditions governing any future flying at the club site has unfortunately now been abusive to our Safety officer. A verbal warning will be given to this member when he is next at the flying field by the Chairman or Committee member as appropriate.

There was no further business and the meeting was closed.
